## WELCOME TO LAKE VÄNERN.

1,294 islands and islets lie in the Kristinehamn archipelago just waiting to be discovered. Dip your feet in the water, go on a journey of discovery, swim, BBQ, fish and camp.

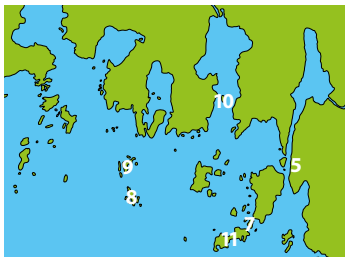

## ISLANDS YOU CAN REACH BY TOUR BOAT

### 7. KALVÖN

Here there is lots of space to pitch a tent and camp. There is a beach with large smooth rocks next to the jetty if you don't like getting sand between your toes. The islands of Vålön–Kalvön–Sibberön are connected by bridges and a 4 km long footpath.

### 8. ALVÖN

The sunbathing island has flat, smooth rocks that face the west. By the two jetties, the popular little sandy beach is a pleasant feature amongst all the rocks.

### 9. LÅNGÖN

Find your own rock. You can camp overnight in many open spaces.

### 10. SAXHOLMEN

An island surrounded by myths, on which archaeological excavations have been carried out. There was a fort, or stronghold, here in bygone times. Now only ruins remain.

### 11. SIBBERÖN

You can reach Sibberön by foot from either Kalvön or Vålön. The islands of Vålön–Kalvön–Sibberön are connected by a 4 km long footpath. An island with rocky beaches, sandy beaches and woodland. The large grassy area by the cabin is perfect for camping on.
